GLOBAL

Biobanking Congress

25-26 October 2018 | London, UK

BIOBANKING CONGRESS Registration Now Open

Oxford Global are delighted to invite you to our Biobanking Congress, taking place on the 25 – 26 October 2018, London. Join over 100 senior level delegates to discuss topics including the latest advancements in sample biobanking and recent uses of biobanks for clinical trials. Across two streams and featuring over 20 presentations, this congress covers the key issues faced by pharma and academia alike in the biobanking field.

Presentations include:

Day 1: Biobanking Regulation, Novel Methods in Biosample Management, Standards and Quality Management

- **Sample Biobanking- Biopreservation of Samples Aligning Central Lab to Overcome Challenges in Sample Handling, Analyses and Reporting**
Mario Richter, AbbVie
- **Biobanking: Making New Treatments Possible**
Erik Steinfeldt, BBMRI-ERIC

Day 2: Biobanking in Biomarkers, Clinical Trials and Precision Medicine

- **The Selection of Biospecimens to Better Clinical Trials**
Gerben Bouma, GlaxoSmithKline
- **Diagnostics and Biomarker Development for Oncology and Urology Patient Diagnosis**
Aida Santaolalla, King's College London
